To Whom It May Concern

We, as a Company, have been very impressed with the services of City Computers.

We have enjoyed an excellent relationship over the past 17 years with regard to our payroll processing. The comprehensive service provided by the staff at City Computers relieves us of the intricacies of payroll administration. We are also able to focus on carrying out our business with no distraction from functions which are ably managed by City Computers.

I can gladly recommend City Computers as a service provider.

Sincerely

A handwritten signature in black ink, appearing to read "A. Thorpe".
